“ Introducing the future of lighting

Niki Company

Niki brand was created in 2000 fully understanding that the lighting world has been shifting to LEDs from conventional fluorescent and incandescent lighting solutions.

Company Mission

Our mission is to understand our customers process and design suitable lighting solutions. Doing so we focus on creating safe and optimized illumination whilst improving their process.

“ Areas of Activity

- ✓ Oil and Gas Sectors
- ✓ Military Zones
- ✓ Construction Sites
- ✓ Hazardous Locations
- ✓ Industrial Buildings
- ✓ Historical Venues
- ✓ Ports
- ✓ Stadiums
- ✓ Steel and Cement Sectors

IDEAS

Our dedicated research and development team constantly generates new ideas perfecting our customized solutions.

SOLUTIONS

Niki Light design and manufacture integrated lighting solutions for areas where water, vibration, maintenance or temperature negatively affects conventional illumination.

ADVANTAGES

Our products combine the long-life and reliability advantages of LEDs with the brightness of conventional lighting.

Why Choose Our Company

- ✓ We love the challenge
- ✓ Product Excellence
- ✓ Honesty & Respect

375 Projects Completed

4718 Units Manufactured

Niki Products

Niki Light has built a name on durable, high quality and safe LED luminaries globally.

We focus on the research and development of energy efficient, robust, waterproof and hazardous location approved luminaries.

“ We assure

- ✓ Efficient and Transparent Communication
